Fund-a-Cause Pledge Form

When the pandemic hit in 2020, everyone was impacted and Heartland experienced a surge in need as people struggled with isolation, depression, and anxiety - there was no discrimination, this silent mental health pandemic hit anyone regardless of age, socio-economic class, or race. In December the Surgeon General stated that there is a mental health crisis with our youth and that suicide attempts have increased by 51%! This is the next pandemic, a silent pandemic that needs to be shouted from the rooftops to get help to those kids, families and individuals struggling.

How can you help? Through your gift, you can be there when the 10 year old has given up and is contemplating suicide or when a mother has hit rock bottom and needs our help to find the mental capacity to care for her children. You can help lay the ground work so mental health services are there for all who need it.

You have the opportunity to "Fund-a-Cause" as part of the Gala's live auction. As we know, being the first one to participate at an auction is always the hardest so we are asking YOU to lead the way through your pledge today. Then when you attend the event, please be one of the first to stand at your giving level. **Here's how you do that:**

Step 1: Choose your cause and commitment level

 *Youth Programs* Providing no cost school based mental health therapy, youth peer support programs, substance abuse prevention education, and suicide prevention education for kids.
